

Interstate 35 Road Reconstruction

Harris and Rush City

Description

A more than eight-mile section of I-35 between the city of Harris and the Chisago/Pine County line will undergo a road resurfacing project. The work will include concrete pavement work, drainage and lighting updates and safety improvements.

Summary of Work

- Resurface concrete pavement
- Remove and replace cable median barriers
- Replace lighting at Rush City interchange
- Add rumble strips
- Update drainage

Traffic Impacts

I-35 will be restricted to a single lane of traffic in each direction. Access at Rush City will be maintained with a short-term closure to reconstruct the ramps. Specific information will be provided as details become available.

Preliminary Construction Schedule

Fall 2018: Construct temporary crossovers and emergency pulloffs

April - June 2019: Construct SB lanes with all traffic on NB

- **June 2019:** SB Rush City ramps will close for 2-4 weeks

July 2019 – October 2019: Construct NB lanes with all traffic on SB

- **Sept. 2019 –** NB Rush City ramps will close for 2-4 weeks

Project Completion Date: Late October 2019

Benefits: Improves pavement, ride quality, safety and traffic flow and updates drainage and lighting.
